Deep sided would be two words that would best describe this bull. He has lots of testicle development and a mature look to him already. His dam is a very nice moderate framed Bando 9074 daughter. These females have worked very well for us and we like them a lot.

Thick and moderate would best describe this bull. His sire Duration is leaving a definite impression in our herd. He is one of those bulls that you are so glad that you were able to obtain along the way in your cattle breeding career. His daughters are and will be so much a part of our programs make up for some years to come. So get used to me mentioning him in my footnotes for years to come. 50w's Dam is a moderate, yet a very heavy, good milking cow. An Iceberg son of hers also sells in the two year old division.

I must mention the dam of this bull because of her track record. She has produced three good sons that have sold through past bull sales, one to Ron Martin of Redvers, Sask. And Brian and Nathan Guillouix purchased two full brothers sired by Iceberg. I wish everyone could stop and see those two impressive herd bulls and the progeny that they have left for the Guillouix's. It is so good when one can go back and see success like that!

A very stylish Duration son with lots of length of body. His mother is a very good milking cow with super udder quality. Notice this calf has two of the breed's maternal greats right up in his pedigree, Leachman Right Time and VDAR New Trend 315. One of our long time repeat customers purchased a maternal brother to this bull in last year's sale. Thanks again to Bob & Dorothy Clay; they are building a very nice commercial, straight Angus cow herd that can go work and produce!

A maternal brother was one of my favorites in last year's sale, selling to Cudmore Farms of Wawota for \$3000.00. I have to tell you this story...One evening while haying in July I received this text on my phone from Mark, saying "Man does that bull we bought this spring ever look good" that was pretty neat! This calf's dam is a big part of both Cudmore's and this good bull's make up. 108N is definitely one of our best cows.

We do very little AI work here but a few calves are born each year as a result. This SAV Density calf is a very good individual and should sire females that one would want to retain or sell as replacements. He comes in a very neat made moderate package. The Heroine cow family has also been working hard for us over a number of years.

EASTONDALE RIGHT TIME 89'09 - LOT 89W

Rockin Ox Ranch

Box 442 Whitewood, SK S0G 5C0
Ph: (306) 434-7207

I would like to start by welcoming everybody to the 3rd annual Eastondale bull sale. We were very pleased how last year's sale went and would like to thank all those that took time out of their busy schedule to share our big day. Also special thanks to those that chose to influence their herd with a piece of our program. Your support is greatly appreciated. Shelli and I would also like to thank the Easton's for all they do for us, without all their help and advice this day would not be possible for us.

I think that we can all agree that with the trying times in the cattle business it is more important than ever to select cattle that will go out and do the work for us instead of the other way around. We build our program around that philosophy and try to breed cattle that are functional, hard working, and easy doing. Our 2010 bull offering fits this philosophy to a T. We have consigned three bulls that have that extra depth, muscle and performance that will definitely add value to your program. We are very excited and proud of this year's sale offering as we feel that they are a true example of our breeding program. We hope that you can join us on April 5th and look forward to seeing you for a visit, a good meal, and a few refreshments. If you have any questions or requests for sale DVD's feel free to contact us at any time.

Clint, Shelli, and Georgia Oxtoby

SAV Net Worth 4200 is universally regarded as the most dominant sire of muscle and thickness in Angus history. He is a real world performance bull whose phenomenal progeny have gained him recognition around the globe. Net Worth was the \$117,500 top-selling bull in the 2005 SAV Sale where he was the lead-off bull of the world record-selling sire group. He earned the heaviest 205-day weight of his calf crop at 995 lbs. and scanned a 365-day REA of 17.2 inches, while earning an IMF ratio of 139. Net Worth is a product of the herd sire producing Blackcap May family that was established at SAV in 1945 and has given birth to more prominent AI stud sires in modern history than any cow family in the Angus breed. The first Net Worth daughters in production follow this maternal legacy with exceptional fertility, body volume, fleshing ability and superb udder quality. Net Worth is the most unique and powerful Angus bull in the world and a major force in the Angus breed.

Supernova is a bull that we purchased from Remitall as a calf. His sire Remitall Paramount 150P was the high seller in their 2004 sale for \$21,000 to KBJ and was the intermediate bull calf Champion at Agribition in 2004. 655S is a bull that adds that extra length, style and performance. Last year our yearling bull offering were all sired by Supernova and were a very uniform group. All his calves seem to carry the big top, style and performance that he displayed. He unfortunately is no longer with us but we used him for two years and were extremely happy with how he crossed with our cows.

An ET son of the very popular RP 3 rd Bushwacker and one of our foundation cows Errolline 53A. Errolline 53A is a daughter of Errolline 51W who was the cow that started our herd and was given to me as a heifer by my dad, Gerald. Errolline 53A was a tremendous 2100 daughter who certainly made a lasting impression in our herd. Whopper 47W is a bull that is a deep, structurally correct individual backed with a strong pedigree and good numbers. Definitely a bull with a strong maternal side and should produce daughters with longevity and power.

Here is a bull that just simply puts it all together. Endorsement has been a standout from birth and has never looked back. We showed him at the CWA 2009 where he was a class winner and definitely drew some attention. His dam Erica 83N is our top cow, a daughter of Spruce View Buros and a granddaughter of Southern Ox Enforcer who was the foundation sire for Southern Ox Angus. She is a very hard working female with a beautiful udder and has simply never missed. His sire is the popular SAV Net Worth 4200, a bull that has stamped his progeny with thickness, depth, and performance and has done just that in Endorsement. We sold a maternal brother to Endorsement last year to Robin Thompson of Maryfield, SK. Endorsement is a very complete, deep, sound, heavy muscled individual backed by a powerful pedigree. A definite herd sire prospect, don't miss out here.

A young powerful son sired by the Remital Supernova 655S bull that bred very well for us. War Hero is a very long and correct bull with a big top which should add some extra pounds to your calf crop. His mother Errolline 71N is a very powerful cow that has been a very consistent producer. Here is a young bull with lots of performance and should not be overlooked on sale day.

2 Year Olds

Erika's two year old bull here! We have always liked some length of spine in our cattle and this good Dryland Iceberg 231M sure exemplifies that fact. This bull's dam was an extremely easy fleshing female.

This bull we own in partnership with fellow Angus breeder, Roy Bjorkland of Fairview, Alberta. 84U is an extremely easy fleshing bull and is a sleep all night heifer bull! Look at his -0.2 BW EPD. Just a little different twist of paper work for our regular bull customers! I just realized my sale partner now owns this bull's paternal granddam; ask Clint how he likes her.

We are just calving our first set of Dryland Max daughters this spring and we are sure not disappointed with their quality. Note this heifer's granddam is the Countess 9D . She next to Forever Lady 9136 was a cow that probably put the most jingle in the jeans for us, consistently raising bulls that the commercial man preferred.

From the strong Mayflower cow family. A Mayflower was the high selling bred female at last fall's Touch of Class Sale, selling for \$3600.00 to Smart Farms of Moosomin, Sask. The strong topped young Max female's maternal brother was one of our high selling calving ease bulls in the 2006 Bull Sale who was purchased by Toms Land & Cattle Co. of Redvers, Sask.

A young female who will just be a year of age at the time of the sale, is a real sweetheart and is sired by the \$15000.00 SooLine Tradition bull that we purchased from SooLine Cattle Co. a couple of years back. Make a note here, she is a maternal sister to one of the best yearling bulls in our offering.
